

Scantool 1250-40 - Guillotine Shear for Metal

Item Number: 00761260

SCANTOOL proudly presents their motorised shears in a new modern design.

The new shears are developed with focus on design, quality, functionality and ergonomics.

Design: New round shape with soft corners - timeless and modern
Quality: Manufactured from the best materials and components - at our production in Poland.

Functionality: RTO patented feature which automatically direct cut pieces below 400mm of length out at the front to the operator.

Ergonomics: The cut-piece falls into a tray which is placed ergonomically correct for the operator and allows the operator to keep gloves on and remove the cut-piece without having to bend all the way to the floor.

Service: New developed knife gab adjustment for easy adjustment from the front of the shear when replacing knives.

SCANTOOL shears are as standard equipped with:

- Return to operator feature
 - Cut counter
 - Manual back gauge with hand wheel and mm counter
 - Mirror illumination of the cutting line by LED light
 - Table extensions of 600 mm (2 pcs.)
 - Squaring arm
 - Rear light-guarding system
 - Double eccentric drive on cutter bar
 - Self-lubricating guide-ways
 - Low knife angle and burr free cutting
 - Rubber coated sheet hold-down
 - Single or multi-cutting option for better efficiency
 - Moveable foot pedal with emergency stop
- Adjustment of knife gab from front of the machine (for Service only)

Optional equipment

- Motorised back gauge
- Sheet catcher/support
- Special blades for cutting stainless steel sheets
- Table extension and angle stop with millimetre gauge and tilt stop
- Adjustable angle stop with millimetre gauge and tilt stop.

Product Specifications

Manual back gauge	✓
Capacity (mm)	1275x4,0
Cutting angle	2,15°
Cutting/min.	40
Machine height (mm)	1500
Machine length (mm)	2100
Machine width (mm)	2000
Motor (kW)	4,0
Net weight (kg)	1350
Sheet thickness steel (mm)	4,0
Working length (mm)	1250
