

Bandsaw

Semi-automatic

The SN 420 Semi-automatic bandsaw has a base in cast iron with ample circular support plate which turns with the large bow. The turntable supporting bow rotates on a ball track guaranteeing easy adjustment to different cutting angles. The bow can be adjusted for 90° cuts or using the adjustable mechanic stops for 45° right or 60° left cuts.

- Blade supported by two blade guides
- Adjustable roller bearings
- Adjustable machine parts
- Bar stop with millimetric bar
- Band rotation sensor
- Protection guards
- Bow tilting on conical roller bearings
- Hydraulic cylinder controls bow descent with adjustable speed
- Drive pedal for semi-automatic cycle
- Double safety switches on pedestal
- Lubrication/refrigeration system for band tightening
